

Eduardo Ferreras

FULL-STACK DEVELOPER

ABOUT ME

I am a junior developer. I have knowledge of various technologies, which allows me to work effectively on both front-end and back-end projects. I also have a C1 level of English, which facilitates communication and access to technical documentation in that language.

EXPERIENCE

Customer Service Rep - DataVimencia

Customer Service Professional with 3 years of experience providing efficient, solution-oriented support. Expert in managing inquiries, complaints, and requests using CRM systems. Proven ability to resolve issues on the first contact, maintaining high levels of customer satisfaction. Known for meeting quality and productivity goals, with clear communication and an empathetic approach.

Customer Service Rep - Uno Call center

Technical Support Representative with experience in diagnosing and resolving hardware and software issues. Provides effective remote and on-site support to users using support tools and ticketing systems. Focused on first-contact resolution and customer satisfaction.
